Relief for Kansas.—TO THE PUBLIC.—The undersigned, appointed a Committee to carry into effect the objects of a meeting of citizens, held at the Cooper Institute, in this city, on the lith inst., for the relief of the soffecers by famine in houses, would make the following representation: It is now made certein that the learth of provisions in that Territory is likely to produce the most étal consequences. The Winter grain, sown last Autumn, perished in consequences. The Winter grain, sown last Autumn, perished in consequence of the drouth. The crops of Spring grain, the Indian cern, the buck wheet, the pocatoes, and other roots, on which the settlers depended to make up for the loss, in like manner uterly failed. In the partures and moving-grounds, the grass withered and died in early Summer, utfler the heat. Multibudes, to the number, it is computed, of thirty thousand, have left the Territory to seek subsistence in the States; multimides yet remain, who have neither the means of emigrating, nor money to procure food from the region to the north and east of them, where the crops have been shoundant. It is estimated that thirty through people are in this dreadful condition, many of whom, if not soon relieved, must literally die of starvition, and many more must perish by the diseases which secompany a famine. The people of the Western States have provided considerable quantities of grain for their relief, but money is wanting to convey these to their destination. There never was, in the judgment of the Committee, a case making a more urgent claim on the liberality of the public. It is to be hoped that every town and city of the State will join in this work of charity, and that cellections will be made for the enferers in all our churches.

Any domation is in more y intended for the relief of the sufferers,

THE WOMEN OF THE SOUTH
DISTINGUISHED IN LITERATURE,
Is the title of a samptiness volume containing Blographical
Sketches, with extracts from their writings, of those women of
the South that have become distinguished in the field of litera-Stackpes with that have become distinguished in the field of literature, including the content of the content o

RECOGNIZE THE COURTESY

Let the South

RECOGNIZE THE COURTESY

in the only practical way, by making this volume a widespread household treasure."

The following is from the pen of the

Rev. Dr. Frime, Editor of The New-York Observer.

He says: "The oppearance of this

TRULY AMERICAN WORK

at this season is peculiarly opportune, and will be appreciated by the North and the South. It shows us how largely we are indebted to the women of the South for their contributions to the licerature of the country; and the volume will be specially welcome to the South, whose sisters and daughters are here illustrated by Northern art, and exhibited in I the attractions of a SPLENDID HOLIDAY DRESS.

It is a besutiful offering of literature from the South to the North, and of art from the North to the South."

The work is elegantly bound in Turkey morocco antique and full gilt, small quarro, price \$9.

If not obtainable at the Bookstores, copies will be sent by mail or express, prepaid, on the receipt of the price, by DERBY & JACKSON, Publishers,

FIRST ARTISTS in EUROPE and AMERICA, and constituting a richness, variety, and completeness of like-traction, alrogether beyond any Popular Natural History ever published citors in Europe or America.

It is at once scientific and popular: that is, it is arranged in a systematic manner of he scientific names of animals being always given, at the same time the popular names are given, as well as the habits, appearance, form, color, instincts, and location of species, with their relation to Agriculture, Commerce, Manufactures, and the Arts.

The work abounds in curious and interesting anecdotes, sketches, incidents, and narratives, gathered from a great variety of sources, illustrative of the

WONDERS and CURIOSITIES OF MALE KINGDOM.

It comprises descriptions of NEARLY FIVE THOUSAND SPECIES, including not only the principal Quadrupeds, Birds, Reptiles, if (shes, Shell-fish, Insects, Ac., of the United States, but those o all other parts of the world, Canada, Mexico, South America, Europe, Asia, Africa, and Oceanica.

The Natural History of animals is a subject of general interest to young and old, to the learned and unlearned. As there is not in the English language any work on this subject suited to the wants of the public, this is designed to supply an obvious necessity.

Price, in elegant Morocco, \$12.
